

**Students:** Would you like the *opportunity to improve your community and win college scholarship funds?*

If so, don't miss out on the opportunity to participate in the 2009 WebChallenge contest.

The WebChallenge2009 contest is called "FREE YOUR COMMUNITY!" Students are challenged to use free technologies that effectively address a need in their local non-profit. The focus is on the effective solution to a problem, not necessarily on the technical difficulty of the final product.  
Registration begins on January 13.

WebChallenge2008 was called "*Socializing the Web*" with participants earning **\$15,000** in scholarships!

We are proud of our success in 2008, but expect *WebChallenge2009* to be even bigger!

For more information on WebChallenge2009, and to register, go to:  
[www.webchallenge2009.org/](http://www.webchallenge2009.org/)

WebChallenge is the signature program of the TAG Education Collaborative (TEC). TEC was formed by the Technology Association of Georgia (TAG), to measurably strengthen Georgia's science, technology, engineering, and mathematics (STEM) education and workforce. TAG is the region's largest technology association with 6,000 members representing 1,500 tech and tech-enabled companies.
