

TAG 2011 TRAINING PROVIDER PROGRAM

TAG strives to be a resource for all its members. In addition to supporting the technology community with events and society meetings, TAG also provides a wealth of information on its websites: the State of the Industry Report, whitepaper program, Press Releases, Community Calendar, TAG TV, and TAG Radio.

Now, TAG is responding to another need of the technology community by becoming a trusted source for training programs. This is completely different from the training programs TAG offers on its open enrollment calendar. These training programs are reviewed and vetted by a distinguished group of TAG Premier Company representatives and are offered at special rates to our member companies. Participation in this program benefits both the providers and the premier companies immensely.

Benefits to Premier Members:

- Content validated by peers
- Content available in unique formats such as a 2 hour Lunch and Learn session.
- Reduced Pricing
- State-of-the-art offerings based on increased utilization of technology by providers
- Wider range of Catalog offerings to reflect your needs
- Free attendance for your employees at TAG Training Day on September 8.

Contact Amanda Shook at 404-920-2023 or ashook@tagonline.org to learn more, sign up for TAG training day, or recommend a training program to us!
