Where Georgia Leads:

Communication Services

One of the fastest growing markets in Georgia is Communication Services. Ranked fifth in the nation, with more than 100 companies in this sector, Georgia boasts strong offerings in everything from telecommunications and multimedia services to fiber optics.

Georgia’s telecom industry is anchored by companies like AT&T, EarthLink and Verizon, and so many others. Strong and active organizations such as TAG and TAG affiliate groups, such as the Association of Telecom Professionals (ATP) also bode well for the sector. Additionally, Atlanta's telecom infrastructure is ranked among the top five U.S. markets for total bandwidth and fiber access, and two of the country's largest fiber routes cross in metro Atlanta. With virtually every major fiber provider possessing a core interconnection point here, it is easy to see why Atlanta is often referred to as “America's Most Wired City.”

These factors, combined with low power rates, a low cost of doing business, and an incredible quality of life have lured and kept a large variety of Communication Services companies in Georgia.
The Southeast’s largest concentration of telecom companies sits at the heart of downtown Atlanta.

Georgia is among the Top 5 states for Communication Services Employment.

Virtually every major fiber provider possesses a core interconnection point in Atlanta.

About Technology Association of Georgia

TAG's mission is to educate, promote, influence, and unite Georgia's technology community to foster an innovative and connected marketplace that stimulates and enhances Georgia's tech-based economy. The association provides members with access to networking and educational programs; recognizes and promotes Georgia's technology leaders and companies; and advocates for legislative action that enhances the state's economic climate for technology.

The TAG Mobility society seeks to help Georgia employees and companies prosper through providing them with the knowledge and inspiration to solve today's challenges and optimize opportunities. The value of the Society will be realized through the bringing together of industry stakeholders to share best practices, network, and learn the quality educational experiences. By sharing mobility strategies and bridging innovation across small and large businesses, while connecting and educating users and providers, we will move toward mission attainment.

For more information, please visit TAG at www.TAGonline.org, and TAG Mobility at www.tagonline.org/chapters-and-societies/mobility/.

TAG serves as an umbrella organization for 33 societies including:

- TAG Data Science & Analytics
- TAG Business Process Management
- TAG CFO
- TAG Cloud
- TAG Connected Content
- TAG Corporate Development
- TAG CRM & CX
- TAG Data Governance
- TAG DevOps
- TAG Digital Media & Entertainment
- TAG Entrepreneurs
- TAG FinTech
